

Conserve Campaign

Energy Conservation Awareness

University of Miami is committed to sustainability.
Help us reduce our carbon footprint.

With our Energy dashboard, you can benchmark your school's buildings, and see in real time how your actions affect your energy consumption.
Where do you go from there? Order an energy audit with us!

Green Tips for the Office

1. Set computer and other electronics on sleep mode.
2. Turn electronics off at night and on weekends to save energy.
3. If possible, use natural day lighting and adjust windows blind accordingly.
4. Turn off the lights when you leave.
5. Set your AC thermostat on 74° F (default temp. for controlled units on campus).
6. Set your AC unit on 78° F when you leave your space for the day.
7. Support this effort by reporting any energy or water waste to our **Facilities Customer Service Department at (305) 284-8282**

Examples of such energy waste includes:

- Energized space heaters
- Cold spaces
- Running toilets
- Broken irrigation heads
- Unoccupied spaces with lights ON
- Televisions, Monitors & Displays ON
- Leaking interior or exterior faucets
- Propped open windows or doors

Become a Green Liaison

Encourage others and help spread the word on the Green U mission. Together we can make UM an even better workplace. Apply to our Green Office program, visit
